# ENVIRONMENTAL POLICY

KT Pty Ltd undertakes the construction of pipelines for the transportation of oil & gas, water and slurry.

KT Pty Ltd is committed to sustainable leading construction practices and works to minimize any adverse impact on the environment resulting from our business activities.

Protecting the environment is the responsibility of everyone in the organisation.

We are committed to reducing the impact to the environment through the following principles:-

- o Focus on prevention of pollution, waste minimization and resource conservation as critical considerations within our core management processes.
- o Compliance with applicable legal requirements and other requirements to which the Company subscribes which relate to its environmental aspects.
- o Regular performance reviews to ensure that environmental objectives and targets are met.
- o Provision of staff training to ensure understanding, implementation and development of these principles throughout our business.
- o Improvement through regular reviews of the Environment Management System to ensure its effectiveness.

All staff will follow the requirements of the Environmental Management System in the performance of their tasks and will ensure this policy is supported and maintained. This policy will be communicated to our employees, customers, suppliers and subcontractors and is available to the public via the Company's website [www.kt.com.au](http://www.kt.com.au).
